RUSHIKESH THORAT

Software Developer | Full-Stack (React.js, Next.js, React Native, ASP.NET Core, C#)

Maharashtra, India | +91-8080050705 | rushikeshthorat378@gmail.com

PROFESSIONAL SUMMARY

Full-Stack Software Developer with 1+ year of professional experience and a 6-month internship building web and mobile applications with React.js, Next.js, React Native, TypeScript, and JavaScript. Backend experience with C#, ASP.NET Core Web API (.NET 8), Entity Framework Core, and SQL Server, including REST API design, JWT authentication, and real-time features with SignalR. Built and integrated AI/ML features using Python. Comfortable in Agile teams using Git, with a focus on reusable components, clean architecture, and performance optimization.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, C#, Python, SQL, HTML5, CSS3

Frontend: React.js, Next.js, Responsive Web Design, Reusable UI Components

Mobile: React Native (CLI and Expo), 3D Model Visualization

Backend: ASP.NET Core Web API (.NET 8), Entity Framework Core, REST API Development, SignalR

Databases: SQL Server, PostgreSQL, MySQL, Database Management

Security: JWT Authentication, Refresh Token Rotation, Authentication and Authorization

AI/ML: Machine Learning Fundamentals, Large Language Models (LLMs), Generative AI, Prompt Engineering, ML Model Integration

Tools and Practices: Git, GitHub, Agile/Scrum, Object-Oriented Programming (OOP), Performance Optimization

WORK EXPERIENCE

Software Developer | *Interglade Software Solutions Pvt. Ltd.* **Aug 2025 – Present**

- Develop responsive web and mobile applications using React.js, Next.js, TypeScript, and React Native (CLI and Expo).
- Build reusable UI components that are shared across screens and projects, keeping the interface consistent and faster to develop.
- Integrate REST APIs and implement secure user authentication and authorization flows.
- Develop AI/ML features in Python and integrate trained machine learning models into production applications.
- Implement interactive 3D model visualization in React Native and optimize rendering and app performance.
- Contribute to .NET backend services and collaborate with designers, QA, and backend developers in Agile sprints.

Software Developer Intern | *DreamsGuider Software Solutions Pvt. Ltd.* **May 2024 – Oct 2024**

- Developed responsive web interfaces using React.js and Next.js, converting design mockups into reusable UI components.
- Integrated frontend applications with REST APIs, handling data fetching, loading states, and error handling.
- Improved page performance by reducing unnecessary re-renders and optimizing component structure.
- Collaborated in an Agile team using Git and GitHub for version control, code reviews, and pull requests.

PROJECTS

AgroHelper – Agritech Platform

C#, ASP.NET Core Web API (.NET 8), React.js, TypeScript, SQL Server, Entity Framework Core, SignalR, JWT

- Built a full-stack agritech platform with an ASP.NET Core REST API backend and a React.js + TypeScript frontend.
- Implemented JWT authentication with refresh token rotation and role-based access to secure API endpoints.
- Developed crop lifecycle tracking, crop rotation planning, and agro-calculator modules backed by SQL Server and Entity Framework Core.
- Delivered real-time weather alerts using SignalR and a .NET background worker service that polls the Open-Meteo API.

EDUCATION

Bachelor of Science in Computer Science **Jun 2022 – Jun 2025**

Padmashree Vikhe Patil College of Arts, Science and Commerce, Pravaranagar **CGPA: 9.51 / 10**

SOFT SKILLS

Analytical Thinking, Problem Solving, Collaboration, Leadership, Decision Making, Communication
